MORGAN EMPLOYEE TELLS OF TAPPING SEYMOURS' WIRES

(Continued from First Page.)

day. Late in the day Mr. Prindle and Mr. Carrington Weems of the Morgan firm told me that the Anglo-American Cotton Products Company had been approached by a couple of men from the offices of Seymour & Seymour, first by Mr. William Hill Jr. and then by Mr. Morton Sultzer. Mr. Prindle and Mr. Weems showed me the original of a telegram sent by Mr. O. B. Phillips, who had desk room with the Seymour & Seymour firm, to President Jarrell of the Humboldt Fibre Company of Tennessee. They had compared this telegram with the original cable signed by Mr. Harjes, Mr. Morgan's Paris partner, transmitting information from the French Government.

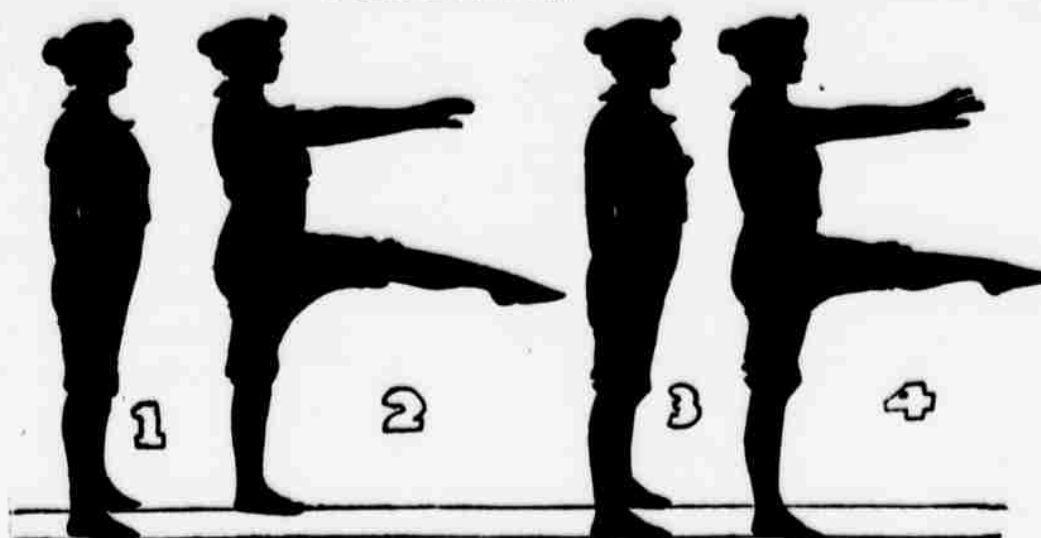

"The Jarrell telegram convinced me that the writer of it was in possession of the original cablegram from Paris."

Mr. Egan read the two messages which referred to a shipment of a certain kind of cotton, with special instructions as to monthly deliveries. Continuing his narration, Mr. Egan said:

"Mr. Jarrell came to our office and told Mr. Prender and Mr. Weems that he had had a number of communications with Mr. Hill and Mr. Sultzer. Mr. Hill had represented to Mr. Jarrell that he had a pull with the Morgan firm and that he and his associates wanted to intervene in the contract for 5,000 tons of cotton lint for which the Morgan house was negotiating. Hill suggested that the cotton company pay 1-4 cent a pound commission and place the contract with Seymour & Seymour. Hill said he was in possession of all the Morgan information and offered to substantiate his position, to produce the original contract the Morgan firm

Obesity Reducing Exercises for Women Presented in a Series of Handy Charts

COPYRIGHT, 1916, BY THE PRESS PUBLISHING CO., (THE NEW YORK EVENING WORLD)

Arranged by **CHART NO. 36 Pauline Furlong OBESITY REDUCTION****LEG RAISING—REDUCES SHOULDERS, HIPS AND THIGHS.**

FIRST—Stand with feet together, arms hanging at sides.

SECOND—Raise the right leg up in front as high as you can and at the same time allow the palms of the hands to meet in front, arms length of the body.

Send two-cent stamp to Miss Furlong, Evening World, No. 63 Park Row, New York City, for each and every back number of charts desired, but order paper of your newsdealer in advance to insure obtaining complete set. Letters not over 250 words in length. Miss Furlong will answer on days alternating between publication of charts, besides writing articles bearing on obesity reduction.

CHART NO. 37 WILL BE PRINTED IN THE EVENING WORLD MONDAY.

was negotiating.

"Mr. Prindle also showed me a telegram sent by O. B. Phillips of the Seymour & Seymour office to the Humboldt Fibre Company of Tennessee which was a paraphrase of a cable sent us in behalf of the French Government. This was concrete proof to me that records were being stolen from our offices. I then decided that the matter should be investigated and I sent for William J. Burns and retained him to make a general investi-

gation. I did not give him any specific instructions.

DENIES HE SUGGESTED THAT OFFICES BE ENTERED.

Q. Did you suggest that he enter the Seymour & Seymour Offices? A. No.

Q. Did you suggest the use of a detective? A. No; but I knew he was going to use one in all probability.

Q. Did Burns make any written reports to you? A. Yes; I have them at the office, but he reported verbally in the main.

Q. Where did you think the thief was? A. In our office.

"Mr. Burns said he wanted the cooperation of the Equitable Building in his investigation of the Seymour offices, and I asked Mr. Mortimer, President of the Equitable Building Corporation, to aid us to catch a thief—that was all."

Q. Did you know that Burns and his son entered the Seymour office and read papers taken from a desk there? A. No, not in advance. I didn't authorize it. I didn't know about the installation of the telephone until Burns told me later he had gone there.

Q. Do you know whether Burns listened in over a tapped telephone wire in the Seymour office? A. No, and I'm morally certain he didn't.

Q. Did you get a report from the Police Department that they had listened in on the Seymour & Seymour wire? A. I saw a fragment of a report submitted for the purpose of having me see whether it conveyed any light on the stolen telegrams. But I found nothing in that direction.

Mr. Egan then stated that the detective reports had failed to give him any evidence such as he desired. He said Burns had told him the telephone has given information as to the shipment of some cartridges to Mexico, he assumed.

SAYS BURNS CAME ACROSS NAME OF GERMAN AGENT.

"Burns told me he had come across the name of a man—Means was the name—generally assumed to be an agent of the German Government. I have known Means as an agent of Capt. Roy-Ed."

Q. Who requested the Police Department to tap the Seymour wire? A. I did. Mr. Lord knew that Burns was on the case for us, and I think they cooperated on it. Mr. Burns is working now on some evidence he has discovered, but I think the ends of justice would be defeated if I disclosed the nature of it.

When Deputy Commissioner Lord was called, he testified in substantiation of what Mr. Egan had related and said he believed a crime had been committed in the matter of the Morgan cablegrams. He said also:

"We had the Seymour wires covered as well as those of two of the Morgan employees who are under suspicion, and an outside man who has telephoned the Seymour office. Burns was never in on any of the wires and the cutting in was discontinued on the 19th or 20th of March."

James M. Beck appeared in court at this point as counsel for Burns and stated to Magistrate McAdoo that as he was uninformed concerning the case he had advised all the Burns witnesses from testifying, as the John Doe subpoena, he claimed, carried no legal obligation.

HAD EVIDENCE OF CRIME, WOODS SAYS.

In the first public statement he has made on the Seymour & Seymour wire tapping case, Police Commissioner Woods declared this morning that the Police Department did not act until documentary evidence showing the probability that a crime had been committed had been submitted by a representative of the Morgan firm.

"This evidence, the cablegrams already made public, was given to Second Deputy Commissioner Lord," he said, "and after questioning employees of the cable company and of J. P. Morgan & Co. he authorized to proceed with an investigation. It was evident the cablegrams could not have been secured through regular channels."

"He then reported to me and that was the first time I heard anything of the matter. I granted permission for the supervision of the wires."

"I am of the opinion Burns was working on the case before we were called into it. We knew nothing of what action he was taking. We would simply use whatever evidence he produced in the course of the investigation. We would probably have been successful in cleaning up the case had not this expose interfered. The Police Department is still at work on the case, but I would not care to predict results."

SAFETY MUSEUM'S MEDALS ARE GIVEN AT LUNCHEON

"Why Wait for War to Prepare for Best Conditions Here?" Asks Dr. W. H. Tolman.

Medals and diplomas of the American Museum of Safety were awarded yesterday at a luncheon in Delmonico's to exhibitors at the third national exposition of safety and sanitation. Dr. W. H. Tolman, who presided, said: "Munition factories, arsenals, docks and shipyards are made the safest and healthiest possible, for the Government well knows that its war personnel must be fit. Why should we wait for war to prepare for the best conditions in the country? Do it now! It is an excellent slogan for us, particularly if there is a serious purpose to secure any part of the markets of the world."

The medals were presented by Dr. F. H. Hutton. Some winners were the Hudson and Manhattan Railroad, the Shur-Loc Elevator Safety Company, the New York Central Lines, the New York Edison Company, the Pullman Company, the Diamond Match Company, the Borden Condensed Milk Company and the Horlick's Malted Milk Company.

Special gold medals were awarded to A. A. Hopkins, the Chairman of the Safety Museum's Exhibit Committee, and Robert J. Caldwell.

Colt, Warr in Auto, Dies.

BRISTOL, N. I., May 26.—Le Baron C. Colt, son of United States Senator Colt and Vice President of the National India Rubber Company, has died from injuries received in an automobile accident on May 18. Albert R. Chesbrough, a yacht designer, was killed instantly in the accident when their car skidded in approaching the Colt residence. Mr. Colt was forty-one years old.

NOTE: Virginia tobacco pays for no duty, no ocean freight, no losses from war-time handling. That is why Piedmont, for instance, made of highest-grade Virginia, grows right here in the U. S. A., can afford to give you better quality than a cigarette of foreign grown tobacco which has to carry all those wasteful expenses.

No Extra Charge for R. Advertisements for The World may be sent to R. Advertising, District Manager office at 100 N. 7TH ST.
